About Us

What We Believe

Everyone deserves quality, affordable housing

Everyone deserves access to nutritious, safe and affordable food

Everyone deserves the opportunity to improve their personal circumstances through the pursuit of education and career growth

We all have the responsibility to help those less fortunate achieve these basic rights

Mission Statement

WORKS passionately delivers quality affordable housing and innovative enriched services. Through our support and stewardship, we build equitable, heart-based sustainable communities and encourage resident self-determination. We envision community in a way that honors our collective cultures.

Welcome to WORKS

Los Angeles, California

Women Organizing Resources Knowledge & Services (WORKS) was formed in April 1998 by women with extensive experience working in low-income communities of Los Angeles in the field of affordable housing and community development. Committed to developing strong, sustainable communities, we combined our years of experience in pioneering pragmatic and innovative models for affordable housing and enriched social service programs to advance family and individual viability.

WORKS has served over 4,300 individuals and families living at or below the federal poverty level and developed more than 1,100 affordable housing units. **When WORKS embarks on a project, everyone involved benefits;** this is our hallmark.

Channa Grace

President

A Message from our President

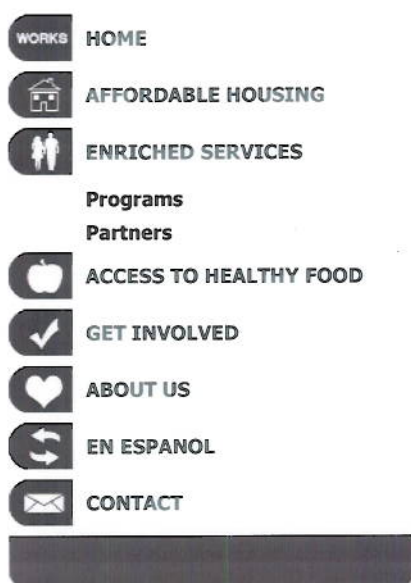

I know firsthand that in order to thrive, families and individuals need a decent, quality and affordable place to call home and access to nutritious food. This is true in the best of times, and is especially true in economically challenging times.

Join us in building affordable housing communities where our children have a safe place to run and play, our elders live in comfort, and where organic and nutritious food is accessible and affordable to people of modest means!

These are the basics!

Enriched Services

Tools and Support

Since its founding in 1998, WORKS has provided families with the tools and support they need for social, educational, and economic advancement. Our array of culturally relevant programs and services assists hundreds of area residents of all ages—from school-age youth and adults to senior citizens.

Services and Programs

WORKS' enriched services are offered as a resource to families and individuals in a nurturing and supportive environment. We also provide a variety of children's programs designed to bolster educational achievement and encourage a love of learning.

Community Centers

Our Community Centers serve hundreds of at-risk children and parents in a non-judgmental and supportive environment. Everyone is encouraged to take an active role in shaping the services offered at the Community Centers to fit their particular community's needs. This not only empowers families but fosters neighborhood ownership and an opportunity to affect positive change.
